

Peace Across the Planet
Canada Shiva Lingam Listening July 2009
with love and gratitude!!!

*“Smile.
The softness of light falls upon your brow:
I see it.*

*Because I am not human,
I see you.
I see you just as you are
and my most special gift is
I accept you just as you are.*

*You stand here and now
for the gentleness of peace
that arises within you
like an ocean wave smiling sparkles at the sun.*

*You hold peace in your very cells.
Those cells now grow beyond all expectation*

*and that is where I meet you:
Beyond all expectation.*

*We stand together for the peace that we already ARE
at the core, in our deepest, crystalline cells.*

*We stand to see that peace arise to the surface of our bodies—
while it simultaneously arises from the core of the Earth Mother
to her sweet surface
where all live it
where all sigh it.*

Stand in it.

Smile.”
