Happy Summer Solstice 09

*“Abbbbb~*

*The endless chant of multiple mystical dimensions  
spiraling upon now  
touches us,  
radiates infinite love—  
even when we still pretend to be  
separate.*

*All of the Elementals—  
all of the kind kingdoms of Life—  
Animal, Plant, Mineral—  
stretch across the sands and the skies  
to be with/ in us  
in the Elemental calendar of life,  
Solstice*

*Dance out your inspiration.  
Meet the magic that has waited for  
only your breath  
birthing your piece/peace.*

*This is the cycle of Life Magical.  
This is the moment of Sweet Alchemy.  
This is the now of all Earthchildren  
joining,  
rejoining,  
remembering  
revitalizing  
The true piece/peace we have always been  
always will be  
and infinitely are*

*Now*

*Now*
